

New

ride access pass

app

social story

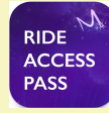

Alton Towers

has

a

new

ride access pass

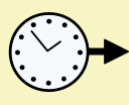

app.

The

app

will

help

me

go

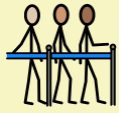

on the

rides

without

queuing.

I

don't need

my

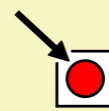

ride access pass ID card

as it's

now

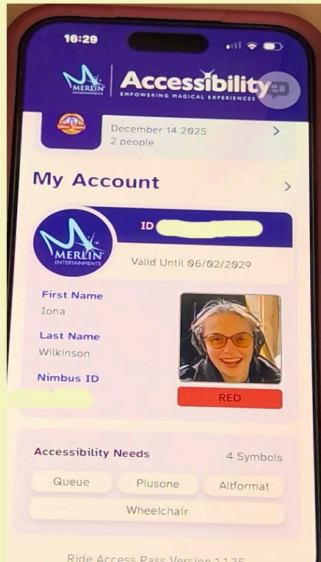

in

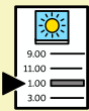

the

app.

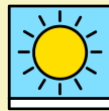

I can

book

the

day

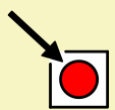

I

want to use

my

ride access pass

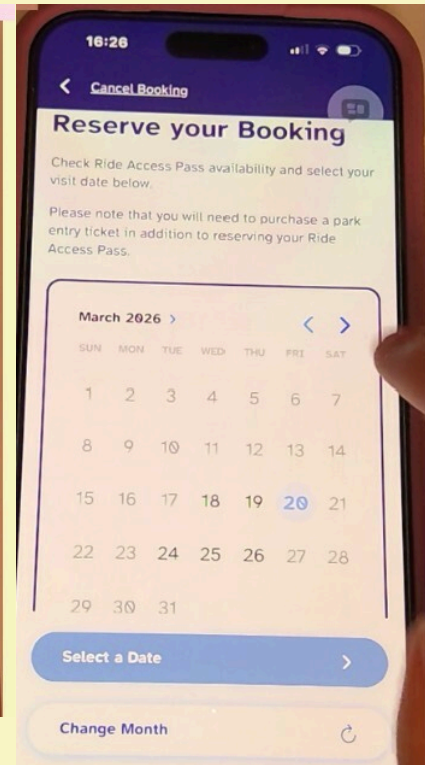

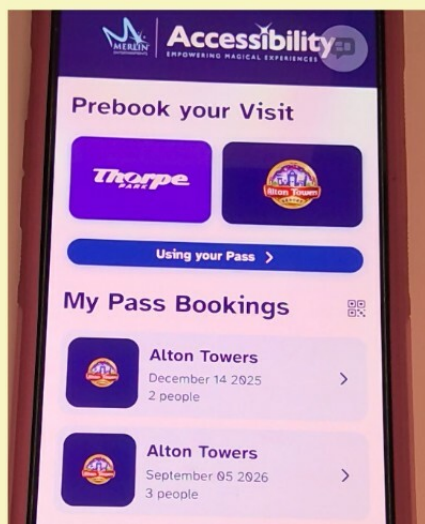

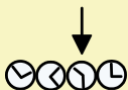

in

the

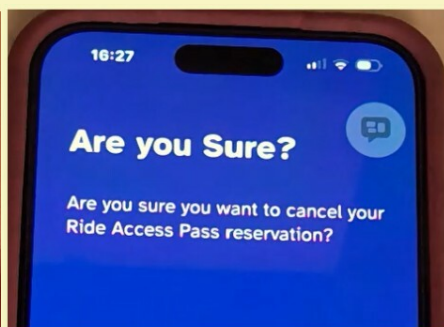

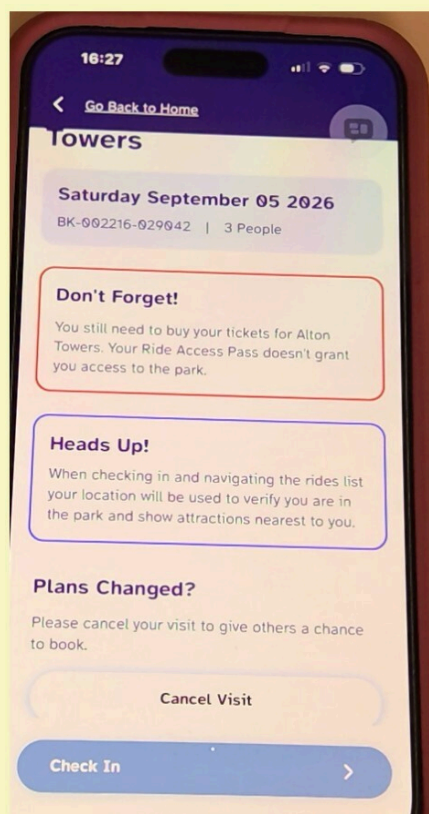

app.

 Sometimes
  my
  plans
  may change
  that's
  ok.
  I can
  cancel
  my

 ride access pass
  booking
  so another person
  can
  enjoy
  the rides.

When I get to a ride I will scan the QR code. Then

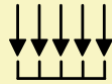

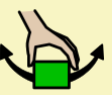

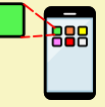

join the ride access pass queue.

my app will already be counting down the queue time.

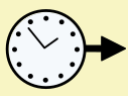

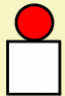

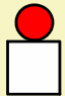

When I'm at the front a staff member will look at my app to

see I've scanned the QR code for the ride.

          

for.

  

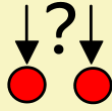

will find

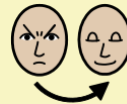

somewhere

to

wait

and

regulate

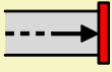

till

my

countdown

is finished.

I can

go

in the

sensory room

or find an

open space

to

run around.

Change can be

very

hard

and make

me

feel upset.

This is

ok

the

staff

in

guest services

can

answer

any

question

I

have about the

app.

It might

be

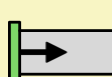

hard

for

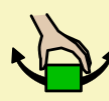

me

to

start

using

the

app

as

new things

can be

scary.

There is

nothing to worry about

the

app

is going to

help

me

have fun!

My group

will

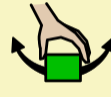

help

me

get used to

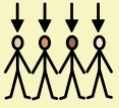

using

the

app.

Everyone

will be so

proud

of

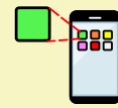

me

for

using

the

app.
